

**NORTH AMERICAN WATER OFFICE &
INSTITUTE FOR LOCAL SELF RELIANCE**

UTILITY INFORMATION REQUEST

Docket Number: ET-2, E-002/CN-06-1115

Date of Request: 3/7/08

Requested From: All CAPX utilities

Response Due: 3/27/08

Analyst Requesting Information: Michaud

REQUEST NUMBER: 7 (Corrected Version 3/11//08)

If you feel that your responses are trade secret or privileged, please indicate this in your responses.

- A. Please provide updates to all Tables in Appendix C-7 that include data from most recent IRP filings or other more recent internal projections of forecasted MWh consumption.
- B. Include an explanation of the source of the updated forecasts for each utility.
- C. In the case of Xcel Energy, if the updated forecast information is not from the IRP plan filed in December 2007, in the case of GRE if the information is not from data provided most recently in docket No. ET2/CN-07-678, or generally, if the forecasts differ from the forecast recently developed for the Minnesota Climate Change Advisory Group Energy Supply Technical Workgroup (0.82%) provide an explanation of why these sources were not used.
- D. Provide additional columns as necessary to show the net forecast Mwh for each year with the 1% and the 1.5% conservation energy goal included in the forecast of MWh consumption for each year.
- E. Add an additional column to each table that expresses the annual Peak Demand forecasted value for each utility based on the 66% load factor estimate method discussed on page 15 of Appendix C-7.
- F. Provide an explanation/discussion of the differences between the data provided under E above and the demand forecast data contained in the most recent MAPP Load and Capability Report forecasts for each utility.
