RE: NoCapX 2020, U-CAN and NoRCA Request for Leave to File Surrebuttal
Response to Applicant's Surebuttal – New Topics and New Witnesses

Dear Judge Heydinger:

As you know, we're on the road show for Fargo CapX 2020. Surebuttal was due yesterday, and yesterday, the Applicants filed "Surrebuttal" testimony focused on EMF through two new witnesses. Now that Applicants have acknowledged the greatly increased potential magnetic field levels, this issue has risen in importance. Rather than object to this testimony, I think it better to go forward and address this issue.

At this time, we request leave to file **BRIEF** Surrebuttal Testimony to address issues raised, and to introduce the Brookings docket Testimony of Dr. David Carpenter (also admitted in the Hiawatha Project docket), the Susquehanna-Roseland testimony of Dr. Martin Blank, and several well known studies referred to in the Applicant's testimony. There will be no surprises, this ground has been plowed and replowed in other dockets. We proposed to submit this Testimony by Monday.

Thank you for your consideration.

Very truly yours,

Carol A. Overland
Attorney at Law
