Basis for Intervening:

Calpine Corporation ("Calpine") is a Delaware corporation engaged, through various subsidiaries, in the development, financing, acquisition, ownership, and operation of independent power production facilities and the wholesale marketing of electricity in the United States and Canada. Through its various subsidiaries, Calpine owns, leases, and operates natural gas-fired and renewable geothermal power plants in 20 states and Canada with an aggregate generating capacity of approximately 28,000 MW. Calpine subsidiaries own several generating facilities in the MISO region, and are active in the MISO markets. Calpine therefore has a direct and substantial interest in the outcome of this proceeding. No other party can adequately represent Calpine's interests, and Calpine may be bound or adversely affected by a Commission order issued in this proceeding. Thus, Calpine's intervention, and its participation as a party, is in the public interest.
