Basis for Intervening:

Exelon Corporation (Exelon) is a holding company, headquartered at 10 South Dearborn Street, Chicago, Illinois, with operations and business activities in 47 states, the District of Columbia and Canada. Exelon owns Commonwealth Edison Company (ComEd), Baltimore Gas and Electric Company (BGE) and PECO Energy Company (PECO). Together ComEd, BGE and PECO own electric transmission and electric and gas distribution systems that deliver electricity to approximately 6.6 million customers in central Maryland (BGE), Northern Illinois (ComEd) and southeastern Pennsylvania (PECO). PECO distributes natural gas to nearly 500,000 consumers in the suburban Philadelphia area. BGE distributes natural gas to over 600,000 customers in central Maryland and also operates a liquefied natural gas facility for the liquefaction and storage of natural gas as well as associated propane facilities. Exelon Generation (ExGen) is the largest competitive power generator in the U.S., with approximately 35,000 megawatts of owned capacity comprising one of the nation's cleanest and lowest-cost power generation fleets, located in a number of organized markets. The company's Constellation business unit is one of the nation's leading marketers of electricity and natural gas and related products in wholesale and retail markets. These businesses serve approximately 100,000 business and public sector customers and approximately one million residential customers in various markets throughout the United States. As a result, Exelon has a direct and substantial interest in the outcome of this proceeding, and its interests cannot be represented adequately by any other party.
