Basis for Intervening:

WPPI Energy is a participant in the CapX2020 La Crosse Project, as discussed in its declaratory petition filing in Docket No. EL12-67 and the Commission order therein. WPPI Energy is also an investor in ATCLLC. Furthermore, WPPI Energy provides power supply and other services to member load located in the vicinity of the transmission investments at issue in this proceeding. For all these reasons, WPPI Energy has interests not adequately represented in this proceeding, and should be permitted to participate with full rights as a party.
